ΞSUSU

<u>Overview</u>

Esusu offers a seamless integration with your ResMan property management software. Once configured, you can continue to use your ResMan software as normal and Esusu will begin recording and reporting your resident's rental payments to credit bureaus such as Equifax, Experian, and Transunion.

<u>ResMan Setup Process</u>

Properties can complete the setup through one of the following two steps:

1. Submit a ResMan Support ticket requesting your property(ies) be integrated with Esusu.

   Or

2. Email vendorsupport@myresman.com requesting your property(ies) be integrated with Esusu.

<u>ResMan API Credentials to be Received by Esusu</u>

In order to complete the integration, Esusu will need the following information provided by ResMan after they enable the integration of your property(ies) with Esusu.
